

# Downloading Shows/Movies

1. Make sure Proton VPN is enabled
2. Go to [fora.snahp.eu](https://fora.snahp.eu)
3. Search for media (file size ~1-3 GB for 1 hour)
4. Click thumbs up in top right
5. Click the media link (e.g. EP01) in the center of page, **base 64 decode \*\*\* ????**
6. Copy MEGA link
7. Open **megabasterd** (red spade icon ♠)
8. Click "File", then New download, it will auto-paste your MEGA link
9. Watch it for a while to make sure it actually downloads. If it stops halfway through, switch VPN locations.
10. Create a new folder in *File Explorer* > *Videos* and place videos accordingly
- 11. Hooray!**
